Professional Summary

Technical Lead and Software Architect with 10+ years building distributed data, AI, and enterprise applications. Leads 8 engineers delivering a five-service Python platform for 100+ customer tenants, combining hands-on architecture across C#, SQL Server, React, and Kubernetes with cross-team technical leadership.

Experience

inRiver

Present

Technical Lead

- Lead 8 engineers building a five-service Python platform supporting 100+ customer tenants and scraping 10,000+ product records daily at peak.
- Manage four environment tiers across 11 US/EU deployments, expanded from a production-only setup, supporting 10+ engineering teams, QA, and stakeholder demos.
- Collaborate with database and spider teams on batch-write and crawler optimizations that reduced typical large-client ETL processing from several hours to 10–20 minutes.
- Architect the C# data mapper that integrates the acquired Digital Shelf Analytics platform with inRiver's core product ecosystem.
- Deliver a browser-state React interface that lets customers iteratively turn unstructured files into import-ready data and find products through conversational AI agents.
- Co-led the MIT open-sourcing of inRiver's React/MUI design system, establishing a reusable component foundation intended for adoption across the product suite.

Detail Online

2018–2022

Senior Backend Developer

- Automated manual data processing with Python, TensorFlow, Caffe, and Darknet, saving 8 staff hours per week.
- Avoided an estimated \$50K in licensing costs by benchmarking third-party AI platforms against PyTorch computer-vision prototypes.
- Delivered 15+ production Python REST APIs backed by PostgreSQL, enabling organization-wide data-pipeline integrations.
- Engineered a Node.js/CouchDB query layer designed for billions of compliance records and gigabyte-scale result files, returning requested data within seconds without full browser-side loading.
- Built a portable C#/.NET QA suite used by approximately 10 staff to automate screenshots, data capture, Excel transfers, validation feeds, and corrected-value overrides.

University of Mindanao

2015–2018

Computer Science Instructor

- Designed and taught curricula spanning programming, object-oriented design, databases, visual development, game development, and security.
- Mentored 100+ undergraduate students in software engineering and database design.

Freelance Software Developer

2015–2018

Independent Contractor

- Delivered three WordPress plugins for publishing and e-commerce workflows plus a Laravel reservation system tailored to client operations.

- Built two C++ applications: a serial-port SMS receiver/sender and an OpenCV-based employee time-keeping system with ID detection.

Technical Skills

Languages: Python, C#, TypeScript, JavaScript, SQL, C++, PHP, HTML, CSS

Frameworks & Libraries: React, Vue, Node.js, Electron, Material UI (MUI), Laravel, TensorFlow, PyTorch, MediaPipe, Three.js

Tools & Databases: Docker, Kubernetes, Helm, Git, GitHub Actions, Azure DevOps, SQL Server, PostgreSQL, CouchDB, MySQL, IBM DB2, L^AT_EX

Selected Projects

Amagon HTML Editor

TypeScript, React, Electron, GitHub Actions, AI

Offline AI-powered visual HTML editor with 50+ components, bidirectional Monaco/canvas synchronization, and 100+ downloads across releases from v1.0.0 to v1.8.10; earned 7 GitHub stars.

Remapad

Browser Extension, Gamepad API

Chrome and Firefox gamepad-control extension that reached 48 users within two weeks of launch through site-specific playback, navigation, keyboard, and virtual-cursor mappings.

Hand Tracking Game

Computer Vision, 3D Physics

Privacy-conscious browser game that processes MediaPipe hand landmarks entirely client-side and maps them into a React Three Fiber and Rapier physics world.

GOG Galaxy DOSBox Replacer

C++, PowerShell

Compatibility utility supporting GOG's DOS game catalog with safe DOSBox Staging upgrades; reached 200+ downloads and 12 GitHub stars while resolving both user-reported defects.

Education

De La Salle University

2017–2019

Graduate Coursework in Computer Science

University of Mindanao

2010–2015

B.Sc. in Computer Science
